EDUCATION

Chandabai s. Patel institute of technology, CHARUSAT June 2023-june2027

Bachelor of Engineering in computer Engineering CGPA-8.1/10

Sardar Patel Vidyalaya- Surendran agar march 2023

Class-12(H.S.C), G.S.E.B Percentile rank-94.48%

SKILLS

Languages: C, C++, Java, Python

Technologies: HTML, CSS, JavaScript, React.js, Next.js, express.js, Machine Learning, Deep Learning, Ethereum, Solidity,

Tools: Node.js, Express.js, MySQL, PL/SQL, Prisma, Firebase, WordPress

CERTIFICATIONS

- NPTEL- Data Structures and Algorithms with java
- Cisco – Introduction to Cybersecurity
  Completed foundational training on cybersecurity principles, focusing on digital asset protection and secure environments.
- Participation Certificate – Cyber Security Event Bindcat Nexus

PROJECTS

IPO Matchmaking Platform – Connecting Investors & PAN Holders

- Developed a matchmaking system that connects investors with PAN holders for IPO collaborations.
- Implemented trust scores, real-time chat, and auto-matching for secure and reliable partnerships.
- Developed premium tools like an allotment chance calculator and IPO demand insights for informed decision-making.

Live Project – Leave Management System (PhD Students) | PDPIAS, CHARUSAT

- Developed and deployed a **web-based Leave Management System** with role-based access for students, counsellors, and dean.

- Built full-stack functionality using **React.js, Node.js, Express.js**, and **PostgreSQL** with **Prisma ORM**.
- Deployed a **scalable, production-ready database** on **Neon (serverless PostgreSQL)** for academic use.

ACHIEVEMENTS

- Top 100 finalist in multiple national hackathons including Odoo x CHARUSAT, Odoo x NMIT, Odoo x Amalthea (IIT Gandhinagar), and Infotsav (IIIT Gwalior).
- Built and presented scalable technical solutions in competitive timelines.
- Gained hands-on experience in rapid prototyping and teamwork.
- **Summer Internship – The Catalystz (Vera Resources)** **May 2025 – June 2025**
  Completed a 6-week internship as a Web Developer, contributing to the development of WordPress-based websites, enhancing functionality, and working on real-world client projects.
